## Degassing agents TP (TDS)

### 1、Description

Degassing agents TP is a modified amide compound. Proper addition can effectively solve the foaming phenomenon of cast iron and aluminum during plastic spraying, eliminate the "spots" and "fish eyes" on the coating surface, and have a good degassing effect on galvanized and magnesium alloy substrates. Among them, Degassing agents TP is suitable for internal extrusion;

### 2. Typical physical data

Appearance	White powder
Melting process temperature	130~135℃
Solid content(%)	>99%

### 3. Suggested formulation

Internal extrusion 0.5-1%;

### 4. Packaging and storage

Polyethylene lining, net weight 20KG caveat; stored in a cool and dry place to avoid moisture absorption. In the < 30 °C is valid for two years at room temperature.
